Night Master 400-IR

£ 65

Description

Night Master NM400 Infra Red LED Illuminator Kit EX DISPLAY NIGHT MASTER NM400-1R INFRARED ILLUMINATOR MINT NEW IN BOX RRP £130+ THIS EX DISPLAY £65 FULL SPEC CLEANER BEAM FOR SAFER SHOTS! The Night Master 400-IR is a small yet powerful infrared (IR) illuminator that provides clean, long range IR illumination for all types of night vision (NV) equipment. Whether you have a digital NV device or one with an image intensifier tube, the 400-IR will give you the distance and clarity you need for spotting, accurately identifying and safely shooting your quarry. The NM400-IR works very well in conjunction with a night vision spotter or scope mounted NV device. It will give eye-shine back at up to 400m and allow you to identify and shoot to 200m (depending on your NV device). Compared to many IR lasers, the beam of the NM400-IR offers much more clarity, giving you a cleaner image of what you are looking at. See the photos below of the IR Laser vs 400-IR Specifications: Uses Nightmaster's DR-IR LED. Length: 13.5cm. Weight: 185g (with battery). Powered by either one or two18650 rechargeable batteries. Use as a 1-mode (High) or a 3-mode torch (Low-Med-High). Made from Aircraft Grade aluminium. Waterproof to IPX-8 standard. Type III Hard Anodised finish.

Condition: Brand New
