Based primarily on the most widely used production platform, the S-01 offers the high quality that all users have come to expect from a Czech made handgun with the ability to customise with different grips, mag release buttons and many other options. KMR has a wealth of knowledge with these type of pistols and make many add-on customisable parts that include the grips, slide rackers, optic mounts, mag release buttons, gas pedals, and magazine funnels. They already service a broad market throughout Europe within the IPSC marketplace and are proud to be in a position to now offer the UK market a top-class pistol. The S-01 comes cut and ready to accept any Shield Mini Sight simply by removing the rear sight blanking plate. The pistol will be supplied in a modern carry case which includes the pistol (with or without Shield SMSc 4MOA Glass lens optic), 3x 10 round magazines, a cleaning kit, KMR branded gun oil, recoil springs enabling fine-tuning to specific ammunition choice and the KMR S-01 manual.
